

From the Desk of the Administrator

It has been a busy year in the Village with many projects either completed, underway, and some just starting. Project Bambi, the new traffic signal on West Pike is completed and is in use. The beautiful School Project is wrapping up and looking for completion in December. Casey's General Store is under construction and looking for a January opening. The Verizon tower has been erected and should be completed by December. NKTELCO has installed a Fiber Hut for lines coming into our Village with the hopes to start installing lines in 2018. The Village has nearly completed the Davis, Linden, and South Street Project. The 1.384M dollar project included new water main, new storm lines, curbs, gutters, sidewalks, light poles and asphalt. The new park is nearly completed, irrigation is being installed on the soccer fields, trees are being planted, and grass for the fields will not be sown until spring. The \$200,000 project was constructed with \$182,647 of grant funding and the remaining was a match of \$17,353 from the Village. The detention/retention pond behind Airstream is complete with the exception of the installation of a pump to pump down the retention part of the pond. The 4.5 million gallon pond is 2.4 mg (million gallon) detention (drains on its own) and 2.1 mg retention (needs pumped out). The \$220,000 project was constructed with \$180,000 of grant funding and \$40,000 was a match from the Village. The total for these projects was \$1,804,368 and the Village match was 10.72% or only \$193,280.63 (Next month: Solar Field)
